

SANiSHOT[®]

A Revolution in Touchless Hand Hygiene is Here...

Automatic Foam Soap Dispenser

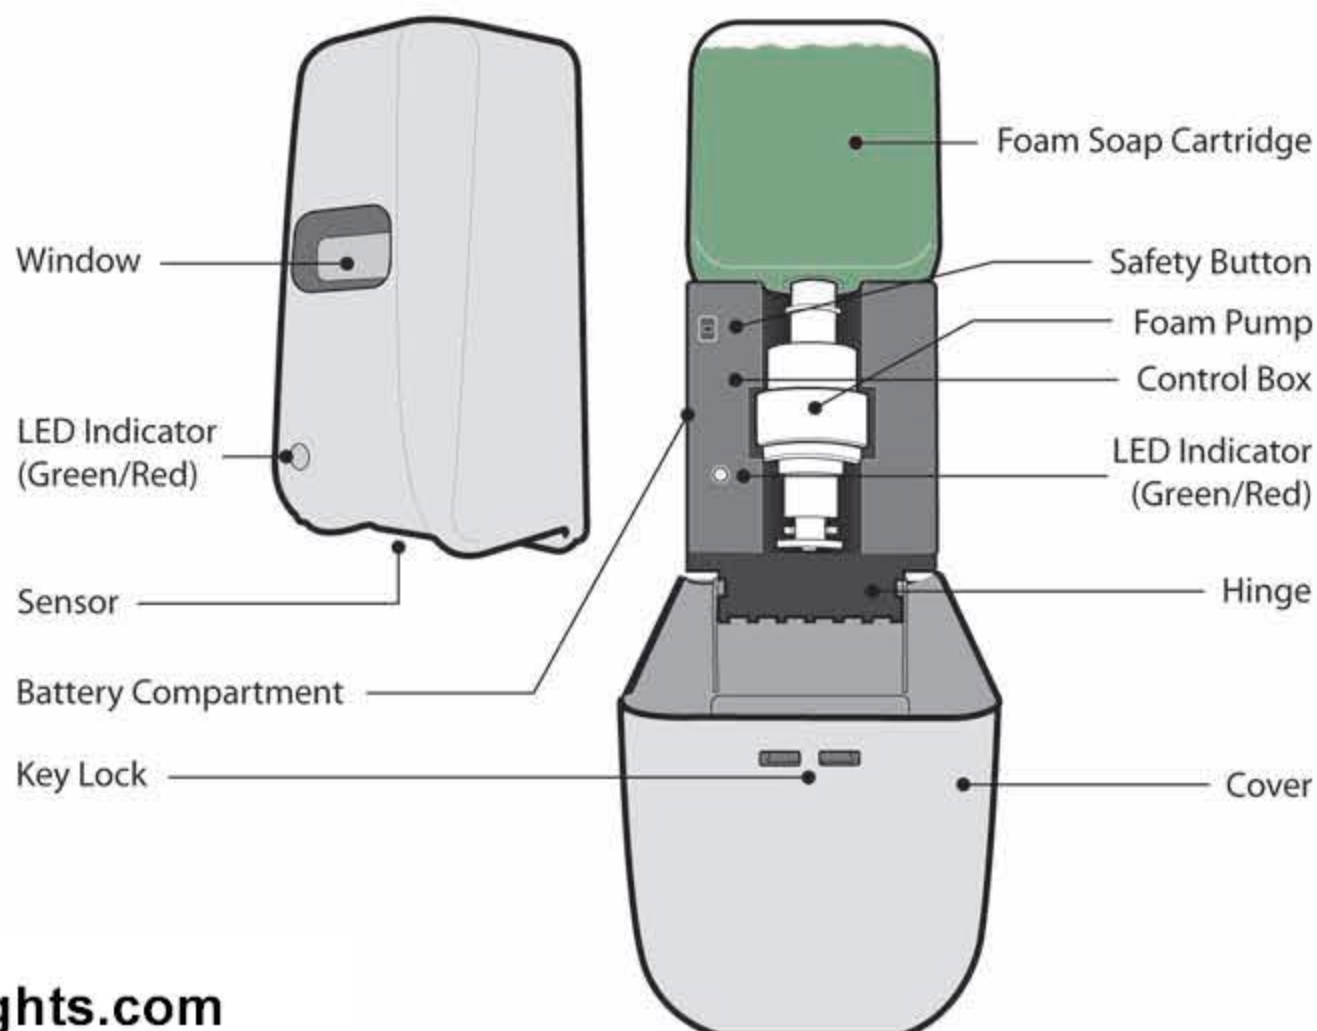

- **Improved Sensor Technology**
Automatically detects the presence of hands.
- **Touchless Dispenser / Disposable Refill**
Because of its touchless function and disposable refills, potential cross-contamination is greatly reduced.
- **New Pump Technology**
New pump delivers a consistent, pre-measured amount of foam soap every time.
- **Attractive & Effective Design**
Sleek design and small footprint make this ideal for many environments.
