Toilet Partition Catalog

BOBRICK

BUILDING VALUE SINCE 1906

Portfolio of Values

Architects, developers and facility managers have selected Bobrick's performance-engineered toilet partitions with confidence since 1970. As a market leader, Bobrick delivers building owner value through design excellence, multiple options, code compliance, and long-lasting durability.

DESIGN

Specifiers choose from a variety of partition materials including Solid Color Reinforced Composite (SCRC), Compact Laminate (CL phenolic) and High Pressure Laminate (HPL) with a substantial selection of colors and patterns. Mounting configurations, Gap-Free® and Maximum Height privacy and hardware options are available.

DURABLE

SCRC, CL and HPL are first quality, extra-durable toilet partition materials that score exceptionally high for graffiti, impact and scratch-resistance. Excellent maintainability is another measure of durability and results in long-term performance, minimizing costly repair and replacement expense.

SUSTAINABLE

Partition hardware is fabricated of 50%–70% post-industrial recycled stainless steel. Regional manufacturing and distribution facilities within 500 miles of 70% of the U.S. population conserve transportation energy consumption. Bobrick's Toilet Partitions can contribute to LEED points.

COMPLIANT

Bobrick toilet partitions comply with the latest ASTM E 84 Flame Spread and Smoke Development index requirements for Interior Finishes. Bobrick will gladly provide toilet partition accessibility consultation including wheelchair accessibility compartment layouts, approaches, turning radiuses and reach range compliance.

HYGIENIC

Cleanability is a key factor in maintaining partitions in a sanitary condition. CL and SCRC surfaces, including doors, stiles and panels, feature Graffiti-Off® non-porous surfaces for easy graffiti removal and disinfection. Other materials with porous textures make cleaning more difficult.

PRIVACY

Architects and designers acknowledge that privacy is playing an increasingly vital role in washroom design. Bobrick answers these needs with privacy options on all of our toilet partitions.

Additional Bobrick Resources

Bobrick's Privacy Partition Brochure

Bobrick now offers partitions utilizing FUNDER**MAX**® compact laminate (CL) for maximum height single panel width up to 72" enabling architects and designers to create deeper stalls without sacrificing aesthetics or privacy.

Bobrick's Restroom Accessory Catalog

Featuring hundreds of stainless steel accessories, including dispensers, receptacles, vendors, hand dryers, and grab bars, this catalog provides all amenities required for the contemporary commercial restroom.

Planning Guide for Accessible Restrooms

The Guide is the latest reference resource for ADAAG accessible restrooms, including wheelchair turning radiuses, accessory mounting heights, reach ranges, and accessible toilet compartments.

Symbols and Resources for Architects, Designers and Facility Managers

All Bobrick partitions are NFPA and ICC fire code compliant. Please refer to Bobrick's TB-73 which provides Flame Spread and Smoke Developed indices. Test results available upon request.

The Rapid Response® symbol signifies 2, 5 (1550 series) and 10-day shipping programs.

Bobrick.com is a world of electronic information and tools, including access to Bobrick's global network of Representatives

Electronic Guide Specs and BIM Objects facilitate efficient project specification.

Spec Wizard aggregates selected Toilet Partition Series for a project into a comprehensive specification.

Toilet Partition Selection and Specification Method

BOBSpec is a systematic approach to Toilet Partition selection factors assuring the most appropriate partitions for a given project, efficient fabrication and successful installation.

BOBSpec assists architects, designers and developers, first in evaluating needs and priorities of a project, and then in selecting materials, configurations, design and privacy options, hardware and color/pattern choices.

BOBSpec results in delivering a concise specification reducing confusion and rework.

Selecting, Specifying and Ordering Toilet Partitions for Each Building Type

Prestige Properties

Bobrick Toilet Partition Series Numerical Product Index

SierraSeries®	(SCRC) - 1090	page 6 – 7
DuraLineSeries®	(CL) - 1080	8 – 9
DesignerSeries™	(HPL) - 1040	10
MetroSeries™	(HPL) - 1550	11
TrimLineSeries™	(HPL) - 1030	12
AccentSeries™	(HPL) - 1530	13

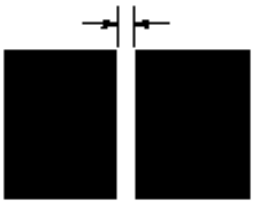
1. Use the Material Selection Chart on page 5 to identify the most appropriate material and mounting configuration for the project.

2. Select the desired material from page 5 and pair it with the partition series height, privacy and hardware options.

3. Select the colors and patterns based on the design concept (SCRC page 7, CL page 9 and HPL page 14).

Bobrick's Privacy Solutions

* Color shown FORMICA Wheat Strand with optional Occupancy Indicator Latch



TIGHTER GAPS

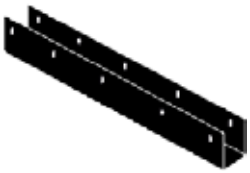
Bobrick made-to-order partitions allow for tighter gaps compared to industry standard.

GAP-FREE OPTION

Available on CL phenolic or SCRC, our Gap-Free option provides no sightlines between doors and stiles.

MAX HEIGHT OPTION

Doors and Panels available in 72" standard privacy height with 4-5/16" floor clearance. Custom heights also available. Contact your local representative for more details.



CONTINUOUS BRACKETS

Bobrick continuous panel bracket option allows for no line of sight at the panel connections.

Material Selection

	Material	Approx. Initial Cost/ Index	Graffiti/Scratch Removal	Notes
Other Manufacturers	Painted Metal	Lowest (1.0)	Low scratch and moderate graffiti resistance Paint or replacement required	Budget applications Many feature standard plastic hinges Class A Interior Finish Fire Code Classification
	Plastic (HDPE)	Moderate (1.9)	Low scratch and graffiti resistance Low impact resistance	High traffic environments Does not meet Interior Finishes Fire Code Classification. Be sure to specify the NFPA 286 test.
	Stainless Steel	Highest (3.0)	Low scratch and impact resistance Moderate graffiti resistance	High Design look Limited Finishes Class A Interior Finish Fire Code Classification
Bobrick Materials	Laminate (HPL)	Lowest (1.1)	Low scratch and impact resistance Graffiti can be removed	Budget for high-end applications depending on options selected Concealed stainless steel hardware is standard for Bobrick partitions Class B Interior Finish Fire Code Classification
	Phenolic (CL)	Moderate (2.4)	High scratch and impact resistance Complete graffiti removal	Highest traffic environments Many colors and patterns Class A and B Interior Finish Fire Code Classification
	SCRC	Moderate to High (2.7)	Highest scratch and impact resistance Complete graffiti removal	High traffic and vandal-prone environments 4 Earthtone colors Class B Interior Finish Fire Code Classification

Mounting Configuration Selection

Configuration	Overhead-Braced	Floor-to-Ceiling	Floor-Anchored	Ceiling-Hung
Points of Attachment	Two Points	Two Points	One Point	One Point
Benefits	Offers the most durable mounting configuration at a budget price.	Durable mounting option even without the headrail.	Superior design. Specify for low-traffic, non-vandal prone restrooms.	Contemporary appearance, provides clear access for floor maintenance.
Additional Information	Most specified toilet partition configuration.	A small premium compared to Overhead-Braced.	Anchored into a solid substrate.	Not appropriate for heavy-traffic, vandal-prone restrooms. (Requires additional structural support.)
Standard and Maximum Height Stiles	85" to top of stile	Accommodates up to 120" ceiling height	70" to top of stile (standard), 76-5/16" to top of stile (max height)	Accommodates up to 120" ceiling height

Note: Urinal Screen Mounting Configurations are Wall-Hung, Post-to-Ceiling and Floor-Anchored.

SierraSeries – Solid Color Reinforced Composite (SCRC) 1090

* Color shown SCRC Forest Green SC04

Features

Solid color-through material

Ultra-hard Graffiti-Off surfaces

Scratch, dent, moisture and impact-resistant

3/4" Doors/stiles and 1/2" panels

Through-bolted panel-to-stile bracket, keeper and robe hook

Class B ASTM E 84 Interior Wall and Ceiling Finish Classification

Emergency access doors

Material Specifications

Dyed wood fibrous material reinforced with polycarbonate and phenolic resins coated with a non-ghosting, graffiti-resistant surface thermoset and integrally fused into a homogeneous piece.

Forest Green SC04

Colors are printed reproductions and are for descriptive purposes only. Refer to manufacturer's samples for absolute color fidelity. Color guides and samples are available from Bobrick on request. SCRC minor edge nicks and random color variations are normal consequences of manufacturing material containing natural fibers. Material can vary in color between thicknesses and production batches. Where color consistency is critical, Compact Laminate 1080 DuraLineSeries is recommended. Discoloration of the edges may occur in environments with significant light exposure. Visit bobrick.com for the latest colors and patterns.
