

# AutoFresh™

## Pump Dispenser

*Air Delights*

### INSTALLATION INSTRUCTIONS

## MOUNTING & OPERATING INSTRUCTIONS

### Wall Mounting:

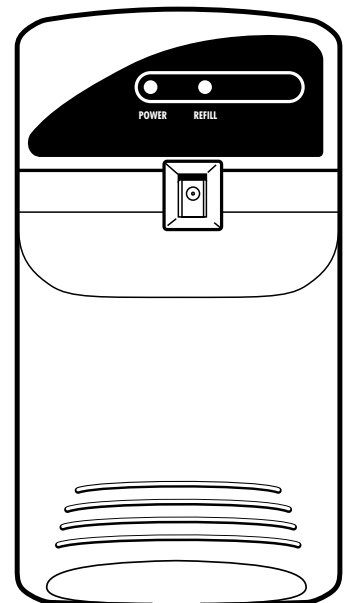

For effective operation, mount dispenser above eye level, a minimum of 7 feet (2.2m) from floor to bottom of dispenser. Ensure location is where moving air will disperse the TC™ Metered LED Pump Sprays throughout the entire area. Position dispenser over wall stud and secure with the supplied screws (2 screws). One AutoFresh™ Pump Dispenser treats up to 6,000 cubic feet (170m<sup>3</sup>).

### Operating Instructions:

This unit contains a special no-key locking feature. If you do not want this locking feature, remove the locking pin from the cabinet by depressing the locking tab bottom prong, inside the dispenser, and push towards back of dispenser.

1. Open AutoFresh™ Pump dispenser cover.
2. Position outer selector switch to OFF.
3. Insert two "D" cell alkaline batteries.
4. Switch dispenser on.
5. Activate the SPRAY TIMER for 2 seconds by pressing the red button.  
IMPORTANT: Do this every time the metered Pump Spray is replaced.
6. Select the desired SPRAY TIME INTERVAL.
7. Select the period of desired OPERATION MODE:  
DAY—operates only when lights are on.  
NIGHT—operates only when lights are off.  
ON—operates 24 hours-a-day.
8. Select Audio ON or Off.
9. Place a TC™ Metered LED Pump Spray into dispenser.
10. Close dispenser cover.
11. To reactivate dispenser, while standing to the side, turn outer switch to ON position.

**CAUTION:** Never stand directly in front of the dispenser when the outer switch is in the ON position. When replacing metered pump sprays, the outer switch should be in the OFF position to avoid being sprayed in the face.
