

# A Safe and Effective Way to Clean and Revitalize Your Flooring and Grout Lines

**Grout HD** penetrates and quickly removes ground in grime from tile, grout lines, leaving behind a bright and revitalized surface.

**Grout HD** utilizes cutting edge technology to provide a product free of harsh chemicals like strong acids and caustic soda, allowing it to be safe on skin and the environment.

Effective on

•Dirt •Grease •Wax •Mildew •Soap Scum

**SUGGESTED DILUTIONS:** Dilutes with water.

Apply with a mop or sprayer. Let stand for 10 minutes and agitate with a deck brush or scrub pad. Rinse with clean water.

**TERRAZZO - CERAMIC TILE - TRAVERTINE - CONCRETE**

**MEDIUM SOIL:**

Add 8-10 fl. oz. (237-296 mL) of **Grout HD** to 1 gallon (3.785 L) of water.

**HEAVY SOIL:**

Add 16 fl. oz. (473 mL) of **Grout HD** to 1 gallon (3.785 L) of water.

**SHOCK TREATMENT:**

Add 32 fl. oz. (946 mL) of **Grout HD** to 1 gallon (3.785 L) of water.

**FOR ALL MARBLE AND OTHER SOFT STONE**

Add 2 fl. oz. (30 mL) of **Grout HD** to 1 gallon (3.785 L) of water.

**NOTE:** Using Grout HD at a stronger dilution is not recommended, may cause etching.

**DILUCIONES SUGERIDAS:**

Dilua con agua. Aplicar con un trapeador o rociador. Dejar reposar durante 10 minutos y agitar con un cepillo de cubierta o matorral. Enjuague con agua limpia.

**TERRAZZO - AZULEJO CERÁMICO - TRAVERTINE - HORMIGÓN**

**SUELO MEDIO:** Añadir 237 - 296 ml de lechada HD a 3,785 l de agua.

**SUELO PESADO:** Añada 473 ml de lechada HD a 3,785 l de agua.

**TRATAMIENTO DE CHOQUE:** Añada 946 ml de lechada HD a 3,785 l de agua.

**PARA TODOS LOS MÁRMOLES Y OTRAS PIEDRAS SUAVES**

Añadir 30 ml de lechada HD a 3,785 l de agua.

**NOTA:** No se recomienda utilizar Grout HD con una dilución más fuerte, ya que puede causar grabado.

Odor Control & Facility Care Solutions

Gallons - 128 GCB / 4 per case

Diluted pH - 1 - 1.5

WHERE IS IT USED

**SUPERMARKETS    SCHOOLS**  
**NURSING HOMES    RESTAURANTS**  
**CASINOS    HOTEL/MOTEL**  
**HOSPITALS    WAREHOUSES**

## Grout HD Cleaner & Revitalizer

An inhibited hydrochloric acid works synergistically with degreasing surfactants to lift and remove ground in soils.

**Grout HD** contains a pair of heavy duty degreasing surfactants that work together with an inhibited hydrochloric acid to rejuvenate tile to its original appearance. The two surfactants work together to provide fast penetration and removal of heavy oil, grease, wax and particulate soils from grout.

- Also effective on glass, concrete, and other hard surfaces.
- Can use at a lower dilution than common hard surface cleaners.
- Safe and User Friendly

Test results from **Grout HD Cleaner & Revitalizer**

- |            |  |
|------------|--|
| <b>A -</b> | Grout before Grout HD treatment                    |
| <b>B -</b> | 5 minute dwell time with Grout HD after agitation  |
| <b>C -</b> | 10 minute dwell time with Grout HD after agitation |
| <b>D -</b> | 15 minute dwell time with Grout HD after agitation |

### Grout HD Key Selling Points

**Grout HD** uses an inhibited hydrochloric acid that works synergistically with degreasing surfactants, to rejuvenate tile and grout to its original appearance.

- **Phosphoric acid, caustic soda and bleach FREE**
- **Non corrosive to skin**
- **Low VOC** and does not create harmful fumes
- **Non abrasive on fragile surfaces**
- **Rinses clean at any water temperature**
- **No noxious odor**
- **Grout HD's** primary degreasing surfactant was originally designed for use on cleaning and degreasing aircraft engines.
- Provides fast wetting/penetration, rinses clean at any water temperature.
- Is also effective as a tub and tile cleaner, toilet bowl cleaner, scale remover, rust stain remover, and a vinyl and aluminum siding cleaner.
