

# Preserve and Protect the Feel, Luster, and Scent of Fine Leather

**-Cleans -Conditions -Protects**

## Leather Cleaner & Conditioner

Helps clean, moisturize, and revitalize your leather, restoring the natural oils and sheen.

Prevents surface aging, cracking, and fading while keeping leather and vinyl looking new.

### Key Benefits:

- Clean, polish, and protect in one step
- Outstanding leather fragrance
- Streak-free and fingerprint resistant
- Softens and renews leather
- Low VOC & environmentally friendly

### Why our Leather Cleaner works so well-

The primary active ingredient is a silicone blended with surfactant chemistry. The silicone provides the polish and shine, while the surfactant provides the cleaning. Together, this material dries and forms a protective barrier on the leather which prevents UV damage/fading and keeps the leather supple.

### •Home & Office Furniture

•Auto Interiors

•Luggage

•And many other smooth pigmented, finished leather products.

**DIRECTIONS:** Always test on all surfaces in an inconspicuous area before using. If surface discolors, fades, do not use.

Spray onto soft, clean cloth. Apply moistened cloth to leather and rub to a shine.

**Do not use on suede, unfinished or extremely soft leathers.**
