

Eliminate Cellulosic Browning and Water Stains from Rugs, Carpets and Upholstery

No-Brown is used for the prevention or removal of cellulosic browning and water stains from rugs and upholstery. It is also effective for removal of fresh urine stains that have not affected the fabric dye. **No-Brown** is a concentrate and should be diluted as indicated in directions. It is diluted with water or neutral shampoos. It is not compatible with alkaline shampoos or jet extraction solutions, but may be applied after their use to prevent browning.

DIRECTIONS: Shake well before using. Test fabric in inconspicuous place for color fastness before using.

USE AS A SPRAY AFTER EXTRACTION:

Do not combine **No-Brown** with hot water extraction solution

1. Mix 4 oz. (118.2 mL) of **No-Brown** with each gallon 1 gallon (3.78 L) of water.
2. Spray on damp carpet or fabric.
3. If necessary, repeat after drying.

USE AS A SPRAY AFTER SHAMPOOING:

Do not combine **No-Brown** with alkaline shampoos.

1. Mix 2 oz. (59.1 mL) of **No-Brown** with each gallon (3.78 L) diluted shampoo.
2. Shampoo as directed on the shampoo label.

USE AS A SPRAY AFTER PLANT CLEANING:

1. After rinsing and before hanging to dry, spray rugs with a solution of 2 oz. (59.1 mL) per gallon (3.78 L) of water of water.

Equipment should be thoroughly rinsed with clean water after using **No-Brown**

NOTE: Freezing will not affect cleaning power. Thaw, shake well and use.
