

# Flushometer Identification

**IN ORDER FOR THE WATER CLOSET OR URINAL TO PERFORM PROPERLY FOR ITS INTENDED USE, YOU MUST FOLLOW THESE INSTRUCTIONS:**

**A. IDENTIFY YOUR FLUSHOMETER MODEL NO.**

**B. CHECK FOR THE WATER CONSUMPTION LABEL ATTACHED TO FLUSHOMETER AND FIXTURE, ENSURING THEY MATCH.**

**C. REFER TO SPECIFIC FLUSHOMETER SECTION IN GUIDE FOR APPROPRIATE REPLACEMENT PART NO.**

## 1. IDENTIFY YOUR SLOAN FLUSHOMETER

Identify our Sloan flushometer from the vacuum breaker, cap, cover or from identification label at the bottom of the valve body. (Sloan parts only supplied).

### Exposed

(Chrome Plated)

### Concealed

(Rough Brass behind wall)

### Water Closet

(Check water inlet at top or back of fixture. Typically 3.5 gpf to 1.6 gpf, larger vacuum breaker)

### Urinal

(Typically 1.0 gpf or 0.5 gpf, smaller, beveled vacuum breaker, wall mounted)
