## Series CIC-P Flexible Reinforced PVC Water Supply Connectors for Ice Makers

Sizes: 1/4" (8mm)

Series CIC-P Flexible Reinforced PVC Water Supply Connectors for Ice Makers are used in residential and commercial applications, specifically for hookups to the icemaker water supply on refrigerators. These connectors provide protection from vibration and bursting under extreme pressure surges. Their flexibility also facilitates the moving of a refrigerator without danger or permanent damage from kinked copper tubing. Series CIC-P consists of PVC tubing jacketed with polyester knitted nylon, protective PVC outer layer, and permanently attached, brass, compression end fittings.
